

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

June 1-15, 2005

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 1-15, 2005**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Wednesday, June 01, 2005</u>			
2004032068	Morgan Ranch General Plan Amendment, Rezone, and Tentative Subdivision Map Turlock, City of Turlock--Stanislaus The proposed project consists of a rezoning and general plan amendment to allow for the subdivision of approximately 122.75 acres into 497 single-family residential lots. Furthermore, the project includes zoning approximately 14.09 acres "high density residential (R-H)" to allow for the future development of a multi-family development with a development density of of 15-30 dwelling units per gross acre (approximately 210-421 dwelling units). In total, the entire project could accommodate between 707 and 918 new residential dwelling units.	EIR	07/13/2005
2004081134	Vila Borba Planned Community EIR Chino Hills, City of Chino Hills--San Bernardino The proposed project consists of a GPA and ZC for the development of 631 dwelling units, 5 acres of commercial, 62 acres of improved open space, and 155 acres of natural open space on 336 acres.	EIR	07/13/2005
2004101014	City of Ventura 2005 General Plan Draft EIR San Buenaventura, City of Ventura--Ventura The 2005 Ventura General Plan is an update to the 1989 Comprehensive Plan that currently serves as the blueprint for development in the City of Ventura. The 2005 General Plan updates each of the 1989 Comprehensive Plan elements, other than the Housing Element (an update of which was approved in 2004) with policies and action items that reflect the current needs and preferences of the community. The land use map will also be updated including a simplification of the number of land use categories from over 30 to 9 land use categories. The 2005 General Plan DEIR includes analysis of six separate land use scenarios. These scenarios range from an intensification/reuse only option with minimal changes to the City's sphere of influence (SOI) to an option that includes three expansion areas totaling 1,449 acres currently in agricultural use for possible future development. The DEIR would also be used as a Master Environmental Assessment (MEA) for future environmental analysis in the planning area.	EIR	07/13/2005
2004121045	EIR for Platinum Triangle Master Land Use Plan and Associated Actions Anaheim, City of Anaheim--Orange The proposed project includes implementation of the adopted Platinum Triangle Master Land Use Plan and associated actions, including a General Plan and Zone Change to allow for the development of 9,500 residential units, 5,000,000 sf of office 2,254,400 sf of commercial.	EIR	07/13/2005
2005011039	City of Banning General Plan and Zoning Ordinance Banning, City of Banning--Riverside The General Plan Study Area encompasses approximately 23.2 square miles of incorporated City lands, with about 8.5 square miles of SOI lands, and about 5.2 square miles outside of the sphere in the Planning Area. A detailed assessment of current land uses and designations was developed for application to the lands within the Study Area. Modifications to the circulation system were also considered, to address current and projected volumes on major roadways. The	EIR	07/13/2005

2005068012	Robinson Canyon Mitigation Site Lassen County --Lassen The site is being developed as a wetland for mitigation of impacts from the Skyline Road project near Susanville. The project will consist of three areas where berms, ditches, and ponds will be utilized to rehabilitate 0.34 acre of previous wetlands, create 12.4 acres of new wetland sites and create 0.63 acre of additional waters of the USA in the form of ponds. There will be no grading or other ground disturbance in an existing wetland area.	NOE	
2005068013	Westwood Ave Safety Improvement Caltrans #2 --Shasta This proposed project is committed to improve pedestrian safety at the intersection of State Route 273 and Westwood Ave. in South Redding, Shasta County, CA. Two fatal pedestrian accidents have occurred at this intersection during the past five years. In order to meet project objectives, the following construction upgrades will be established: add an additional right-turn lane to Westwood Avenue by widening to the south, add new sidewalks to both sides of Westwood Avenue, add intersection lighting, add lighting to illuminate the southbound (SB) SR 273 right-turn movement from SB SR 273 onto Westwood Avenue, and add crosswalks to SR 273 and Westwood Avenue. In addition to the above-mentioned improvements, two bus stops will be added to both sides of SR 273. Drainage improvements will occur on the west side of SR 273 and a maintenance pull-out will also be added to the same side of SR 273 just north of Westwood Avenue. Project related activities will occur within the Caltrans right-of-way (ROW), with the exception of a temporary easement onto City of Redding land. Federal resources are a part of the project funding.	NOE	
2005068014	Weed's Rest Area Caltrans #2 --Siskiyou ADA requirements are mandated for compliance by 2008. In addition due to high use, aging facilities and other site-specific concerns, the SRRA's are in need of preventative maintenance, repair and upgrading. Proposed improvements will address ADA requirements and continual maintenance concerns by repairing, replacing, removing, or modifying items that are ADA/CAL-OSHA non-compliant, outdated or no longer efficient. This project proposes improvements to the northbound and southbound Weed Safety Roadside Rest Areas. The work will bring current facilities into compliance with ADA and CAL-OSHA standards. New facilities may be constructed to insure the facility will continue to meet anticipated future demand. Work includes renovation of the existing comfort stations modifications to the existing sanitary, constructed to conform to kiosk areas.	NOE	
2005068015	Lease of Office Space in Single Tenant Building Industrial Relations, Department of Santa Ana--Orange The Department of Industrial Relations, Division of Occupational Safety and Health, is proposing to lease approximately 24,569 sf of office space. The office will have approximately 89 employees. Public parking is available nearby. Public transit is available within 1/4 mile of the site.	NOE

2005062005	<p>Tuolumne River Regional Park Gateway Precise Plan Modesto, City of Modesto--Stanislaus</p> <p>The Gateway Parcel is the first phase of development for the Tuolumne River Regional Park (TRRP). The park design accommodates multiple purposes including recreation, wildlife habitat, and education and interpretation. Large public gathering areas will be located on the Gateway Parcel, including a 3,000-person, grassy outdoor amphitheater or amphimeadow. Project plans for the Gateway Parcel include a paved pedestrian and bike trail, compacted earth pathways, expansion of Tuolumne Boulevard and adjacent sidewalks, paved and turf-block parking areas, platform overlooks on the river, and a pedestrian and bicycle bridge over Dry Creek. In addition, the Gateway Parcel will be terraced to improve connectivity between the Tuolumne River and its floodplain and to revitalize its riparian vegetation.</p>	Neg	07/05/2005
2005062008	<p>General Aviation Ramp/Arcata-Eureka Airport Humboldt County --Humboldt</p> <p>The proposed project consists of the construction of a new general aviation ramp with associated hangars, aircraft parking and vehicle parking. The project includes constructing a new access road; installing water, electrical, gas, and sewer services; installing security fencing; and installing a storm drain system. A total of 29 hangars will be constructed some time in the future.</p>	Neg	07/01/2005

<u>Documents Received on Friday, June 03, 2005</u>			
	(PCWA) and Bickford Holdings, LLC. The MFA establishes the scope of the Water Conveyance System facilities to be constructed by the Applicant; the minimum conditions precedent for the Applicant to use its raw water entitlement and to obtain potable (treated) water for the Bickford Ranch Specific Plan area; the minimum design parameters for storage, transmission, and distribution facilities, and the acceptable order of completion of those facilities; funding for Water Conveyance System construction; facilities ownership; re-allocation of untreated raw water to augment potable water supply; and requirements for complying with CEQA. The MFA also provides for the reduction or elimination of the need for potable water use in outside irrigation to the extent possible by including provisions in the agreement for adequate raw water supplies for outside irrigation.		
2005042153	Landscape Stabilization and Erosion Prevention Plan Parks and Recreation, Department of Crescent City--Del Norte The plan will implement road recontouring on approximately 93 miles of abandoned unstable inner-gorge, mid-slope and ridge top service and skid roads within the Mill Creek Watersheds. The work will include excavation of embankment fill from roads and stabilization of excavated materials on cutbench to fully recontour natural (pre-disturbance) topography. All of the roads proposed for treatment under this plan are currently impassable and could not serve as part of a transportation network. The project also includes removal of fill material from 351 stream crossings associated with the service and skid roads described above. The majority of the crossings will have no flow during the proposed construction season and are typically small fill crossings. Most of the crossings are already partially removed and many are actively failing. Stream crossings removal will include road cut slopes and recontouring to match the natural slopes will stabilize the crossings. Stream channel bed, banks, and adjacent slopes will be restored to their pre-crossing configuration. Longitudinal stream gradient will be reestablished through the crossing site.	NOD	
2005069005	Kern River Family Mortuary San Joaquin Valley Air Pollution Control District Bakersfield--Kern Kern River Family Mortuary is a new facility applying for Authority to Construct (ATC) permits to build a new Crematorium and Mortuary in Bakersfield, CA. Robbie Q. Harding, of Kern River Family Mortuary, proposes to install at a 1.75MBTU/Hr (primary burner and afterburner) Natural Gas-Fired Crematory Model A-200 HT by American Crematory Equipment Company. It is estimated that approximately 350 bodies per year will be cremated at the facility. A Health Risk Assessment has been performed for this project and indicates no significant risk. This facility is estimated to have emissions under the 2 lbs. per day (less than the BACT threshold) for each criteria pollutant; except NOx. However, BACT requirements for NOx will be satisfied by the use of Natural Gas fuel. Therefore, this facility would not trigger offset thresholds.	NOD	
2005068065	Southern California Water Company - dba Arden Cordova Water Service - Pyrites Water Treatment Plant, Replacement of Water Source Health Services, Department of Rancho Cordova--Sacramento The project involves replacing groundwater supply lost to well contamination with supplemental surface water supply. 	9,000 sf (LDR-1=175 lots) to 14,000 sf (LDR-2=74 lots); (2) annexation of the specific plna into the City of Corona; (3) General Plan Amendment from RR-1 to RR-2 so land uses will be consistent with City categories; and (4) Tentative Tract Map 32023.		
2004081146	Eastern Gateway Retail Center EIR Blythe, City of Blythe--Riverside The proposed project site is approximately 27 acres in size and will be divided into 11 parcels. The largest parcel will include a 175,000 sf Wal-Mart Supercenter. One of the parcels will be developed as a Wal-Mart gas station. The remaining parcels would be available for use as various retail-commercial purposes. No specific end uses/tenants have been identified at this time.	EIR	07/20/2005
2005022011	City of Lincoln / WPUSD Building Lincoln, City of Lincoln--Placer The proposed project is a 60,000 sf building in downtown Lincoln, which would house staff of the City of Lincoln and the Western Placer Unified School District (WPUSD). The proposed project also includes a Civic Center Overlay Zone, which would allow building heights of up to 75 feet in a 1.5 block area. The current height limit is 50 feet.	EIR	07/20/2005
2005061023	Proposed Parcel Map PM-05-018 Victorville, City of Victorville--San Bernardino To allow for the creation of four parcels and one remainder parcel from one existing parcel for future residential development.	MND	07/05/2005
2005061035	Cottage Lane Specific Plan Lake Elsinore, City of Lake Elsinore--Riverside This project involves the City of Lake Elsinore's adoption of The Cottage Lane Specific Plan, an infill residential project with internal recreation (a 20,000 square-foot [SF] neighborhood park).	MND	07/05/2005
2005062018	Tentative Parcel Map No. 2595 by Francisco & Dora Devai Amador County Plymouth--Amador Tentative Parcel Map No. 2595 by Francisco & Dora Devai propose the division of 320 acres into four parcels of 40, 40, 120 and 120 acres on property located off a private easement about one mile south of Hwy. 16 just east of the Amador County / Sacramento County boundary line.	MND	07/05/2005
2005062028	Alvarado Avenue Annexation, Rezoning and Tentative Map Residential Project Stockton, City of Stockton--San Joaquin (1) Annexation of 52.91 acre site to the City limits; (2) rezoning of 25.13 acres to RL, Residential Low Density and 8.19 acres to RM, Residential Medium Density; and (3) Tentative map to subdivide a 12.91 acre site into 77 lots for property on the west side of Union Pacific Railroad track and south of Calaveras River.	MND	07/05/2005

<u>Documents Received on Monday, June 06, 2005</u>			
2005062029	<p>Williamson Coastal Development and Conditional Use Permits (CDP-04-95 / CUP-04-34) for a < 3-acre Conversion Humboldt County Community Development Services --Humboldt</p> <p>A CDP / CUP for the commercial harvest of +/- 150 trees within a 1.2 acre portion of a 2.5 acre residential parcel. The harvest will remove +/- 54% of the trees. The trees to be removed range in size from 12-60" diameter and 130-160' in height and are mostly redwood with some red alder. The harvest is intended to open up yard area and remove hazard trees from around the existing residence. There is an intermittent watercourse that traverses the northern end of the parcel. The State's Forest Practice Rules require a 50' setback which corresponds to the requirements of the Trinidad Area Plan (TAP), §3.30B(5)(e)(2) with regards to timber harvests less than 3 acre in size with riparian corridor areas. The forester proposes to remove trees up to the 50' setback from the watercourse, but restrict heavy equipment to an area no closer than 100'. The residence is served by on-site sewage disposal and community water. No new development is proposed at this time.</p>	MND	07/05/2005
2005061020	<p>La Novia Bridge Widening Project San Juan Capistrano, City of San Juan Capistrano--Orange</p> <p>The City of San Juan Capistrano is proposing improvements to the existing La Novia Avenue bridge that spans San Juan Creek. The existing two-lane bridge will be demolished in phases and replaced with a four-lane facility. The three-span bridge will be approximately 260 feet long and 84 feet wide. In addition, to the four travel lanes, the bridge will also include a pedestrian lane and an equestrian lane that will be physically separated from the travel lanes. Driven piles will support foundations for the bridge. Existing concrete lined sloped channel sides will be removed and replaced with earthen channel slopes in front of abutment walls. Deepened abutment walls and foundations below the surface of the channel will provide protection from erosion near the bridge abutments. The design speed for the bridge is 45 mph.</p>	NOP	07/05/2005
2005062013	<p>Gateways Redevelopment Project Santa Rosa, City of Santa Rosa--Sonoma</p> <p>The Redevelopment Plan will provide the City with the legal authority to assist with the revitalization of neighborhoods in economic and physical decline in accordance with the City's General Plan, Zoning Code, Design Guidelines, and other local policies as well as within the framework of State and Federal laws.</p>	NOP	07/05/2005
2005062017	<p>Coyote Valley Specific Plan San Jose, City of San Jose, Morgan Hill--Santa Clara</p> <p>The proposed Coyote Valley Specific Plan encompasses an area of approximately 3,500 acres for the development of a minimum of 25,000 residential units, 50,000 industry-driving and business support jobs, approximately 1.5 million square feet of retail space, flood and transportation infrastructure improvements, and a variety of public facilities/services. The Specific Plan area also includes a 3,600 acre Greenbelt area, which would be retained as a permanent, non-urban buffer between San Jose and Morgan Hill.</p>	NOP	07/05/2005

2005062022	Tolbert's Residence on Mt. Washington Calistoga, City of Calistoga--Napa The applicant is proposing to develop a 3,000 sq. ft. single family residence with attached garage, swimming pool, and second dwelling unit.	NOP	07/05/2005
2005062023	Town of Corte Madera General Plan Corte Madera, City of Corte Madera--Marin This is an update of all of the General Plan Elements except Housing.	NOP	07/05/2005
2005062027	River Park General Plan Amendment and Rezoning West Sacramento, City of West Sacramento--Yolo The project includes the development of a residential component, elementary school, open space framework, commercial center, water-related commercial area, circulation plan, and infrastructure plan. The project would amend the current land use designations to support development of approximately 2,788 residential units (including rural residential, low-, medium-, and high-density offerings), a 44-acre regional park, and community open-space areas. The project also includes changes to the General Plan and the Zoning Map to generally increase residential densities and add recreational opportunities.	NOP	07/05/2005
2003072099	Cross Winds Church Livermore, City of Livermore--Alameda Development of a new church facility with a pre-school and other accessory uses, having a total floor area of 121,300 +/- sf, a parking lot with 646 parking stalls, landscaping, appurtenant site improvements including the realignment of Friesman Road and the relocation of the Friesman Road/El Charro Road intersection 500 +/- ft. south of the current location and a new outfall in the Arroyo Las Positas.	Neg	07/05/2005
2005061021	Lugo Minor Use Permit DRC2003-00098 San Luis Obispo County --San Luis Obispo Request by Greg and Mary Lugo for a Minor Use Permit / Coastal Development Permit to allow a new 1107 sf garage/workshop on a site with an existing 1594 sf residence with a 702 sf attached garage. The project will result in the disturbance of approximately 1107 sf. The project is located on the west side of Cottontail Lane (at 2675 Cottontail Lane) 162 feet south of Bayview Height Drive, in the community of Los Osos, in the estero planning area.	Neg	07/05/2005
2005061022	Opah Ditch Materials Site Caltrans #8 --San Bernardino Caltrans is proposing to reactivate the materials surface mining and processing operations on 19 acres of the Opah Material Site (Opah Ditch) located along I-15 between the city of Barstow and the community of Baker.	Neg	07/05/2005
2005061024	OTP 03-132 Los Angeles County Department of Regional Planning Malibu--Los Angeles Application for an OTP to remove three (#1, 2, and 7) and encroach upon five oak trees (#3, 4, 6, 67, and 68) in order to construct a three-level single-family residence and an access road. A private paved driveway, a septic system, a water well, a 10,000 gallon water tank, a fire hydrant, and retaining walls are also	Neg	07/05/2005

	proposed for this project. Approximately 450 cubic yards of grading will be required in which 430 cubic yards will be exported to Calabasas landfill or other Los Angeles County / Coastal Commission approved site. The proposed previously hand ERB review for PP48662 in April of 2003.		
2005061025	San Luis Obispo County Schools Minor Use Permit D010323P San Luis Obispo County San Luis Obispo--San Luis Obispo Request by San Luis Obispo County Superintendent of Schools for a Minor Use Permit / Coastal Development Permit to allow for the removal of an existing 1,053 sf temporary building and the construction of a new 4,245 sf administration building and a new parking lot with 45 spaces, resulting in a disturbance of 24,000 sf. The project is located on the north side of the intersection of Education Drive and Highway 1, in the rural part of the County, approximately 3 miles northwest of the City of San Luis Obispo, in the Estero planning area.	Neg	07/05/2005
2005061026	Vaughn Major Grading Permit (PMT2004-01954) San Luis Obispo County Paso Robles--San Luis Obispo Request by Donald Vaughn to grade for a residential building pad and driveway, which will result in the disturbances of approximately 17,000 sf of a two-acre parcel including 600 cy of cut and 600 cy of fill.	Neg	07/05/2005
2005062014	Ron & Valerie Martin Tentative Subdivision Map (TSM-05-01) Siskiyou County Planning Department Mount Shasta--Siskiyou Application for approval of a Tentative Subdivision Map to subdivide a 38.2-acre site, which consists of 2 existing parcels, into 15 single-family residential lots ranging in size from 2.1 to 2.7 acres. The proposal includes construction of a private internal roadway to provide access to 14 of the 15 lots. The private road would take access from Villa and Big Valley Roads. The 15th lot would take access directly from Big Canyon Road.	Neg	07/05/2005
2005062015	St. Juvenaly of Alaska / Fr. David C. Cownie (UP-04-16) Siskiyou County Planning Department Etna--Siskiyou The applicant requests Use Permit approval to construct an 800 sf church and a 80 ft. dedicated cemetery, on a 6.7 acre parcel.	Neg	07/05/2005
2005062016	Ronald Scott Wilson (TPM-04-017) Siskiyou County Planning Department Etna--Siskiyou The applicant requests Tentative Parcel Map approval to create four parcels (7.0 acres, 8.0 acres, 6.0 acres, and 45 acres) and a 78.2 acre remainder.	Neg	07/05/2005
2005062020	Philip and JoAnn Tentative Parcel Map (File # TPM 05-10) Butte County Oroville--Butte Tentative Parcel Map to divide a 10.22 acre parcel into two parcels, 5.11 acres each. Sewage disposal would be handled by individual, on-site septic systems and domestic water obtained from individual on-site wells. Both parcels would have access off a publicly maintained road. The project site is developed with one single family dwelling.	Neg	07/05/2005

<u>Documents Received on Monday, June 06, 2005</u>			
2005062021	George Reed, Inc. San Joaquin County Community Development Department Escalon--San Joaquin The project is a quarry excavation application to remove approximately one million cubic yards of rock, sand, and gravel from a 57 acre parcel using the open pit method of extraction over a 12-year period. Phase one will consist of 17 +/- acres to be reclaimed by 2011. Phase two will consist of 17 +/- acres to be reclaimed by 2015. Phase three will consist of 17 +/- acres to be reclaimed by 2017.	Neg	07/05/2005
2005062024	Eureka Pacific, Vigo Street Mixed Use Development Eureka, City of Eureka--Humboldt The applicant is requesting a coastal development permit and a Conditional Use Permit for the demolition of one existing commercial structure (a former truck terminal) in order to construct, perhaps in two phases, approximately 49,674 sf of retail building area. Phase One will include the construction of approximately 43,674 sf of retail buildable area, comprised of 1 to 3 buildings and/or an outdoor yard for large product retail use and will include construction of all off-street parking and landscaping; Phase Two will include approximately 6,000 sf of retail/café buildable area with the possibility of a café/restaurant with a drive thru window. The project site is located in the California Coastal Zone and the City of Eureka has permit jurisdiction for granting the Coastal Development Permit with appeal jurisdiction to the California Coastal Commission. The construction of the project is considered 'development' under the Coastal Act and therefore requires the issuance of the Coastal Development Permit. The development of a restaurant (café) whether or not it includes a drive-thru window is a conditionally permitted use within the Commercial Service zone district, therefore, the project requires an approved Conditional Use Permit. The project includes a lot line adjustment that will, basically, place the Phase I and Phase II developments on separate properties.	Neg	07/05/2005
2005062026	Pennisi Tentative Parcel Map Sacramento County --Sacramento A Tentative Parcel Map to divide 10 +/- acres into 2 lots on property zoned A-5.	Neg	07/05/2005
1997062089	GENERAL PLAN LAND USE AND TRANSPORTATION ELEMENT Oakland, City of OAKLAND--ALAMEDA Ordinance of the City of Oakland ordering the submission of a ballot measure to incur bonded indebtedness not to exceed \$198,250,000 for the purposes of improving, rehabilitating, acquiring or constructing recreational facilities, water quality, improvements, open space and public access bordering Lake Merritt, the Oakland Estuary, creeks, and Lake Merritt Channel to the qualified voters of the City of Oakland at an election held November 5, 2002.	NOD	
2004102007	Natomas Unified School District, Northborough II Elementary School Natomas Unified School District Sacramento--Sacramento A K-5 elementary school complex serving 825 students on a 10.88 acre site within the Northborough master planned community.	NOD

	SPA No. 8 will reduce the number of dwelling units from 2,255 to 1,796 and also decrease the acreage for residential uses from 281 acres to 175 acres within the project area. Additionally, SPA No. 8 will remove four acres of commercial use, and increase the amount of open space by approximately 110 acres. SPA No. 8 would reduce the number of residential units for the overall ELSP area, which is currently identified as 8,420 dwelling units. Under SPA No. 8, the total units in the overall ELSP area would drop to 7,961. The project also proposes a General Plan Amendment for proposed changes to the Circulation Element for the alignment change of Bundy Canyon Road and Diamond Drive.		
2005051168	06-KER-119-KP 4.8/5.4 (PM) EA; 430500 Caltrans #6 Taft--Kern Caltrans proposes to lengthen the existing northbound left-turn lane on State Route 119 at Midway Road between kilometer posts 4.8 and 5.4 (post miles 3.0 and 3.4), construct a right-turn lane on southbound State Route 119 at Midway Road, widen existing shoulders 2.4 meters (8 feet), overlay the roadway with asphalt concrete, repair a culvert, and add asphalt concrete dikes and drains. Some utilities would be relocated.	Neg	07/07/2005
2005061029	Permanent Transfer of State Water Project (SWP) Long Term Water Supply Contract Table A Water from Tulare Lake Basin Water Storage District to County of Kings Kings County Kettleman--Kings The proposed project is a permanent transfer of up to 305 acre-feet Table A water amounts of the California State Water Project Long Term Water Supply Contract from the Tulare Lake Basin Water Storage District ("Tulare Lake") to the County of Kings ("County"). The Tulare Lake Table A water proposed to be transferred will be acquired from White Ranch Land Co., LLC. The County will hold and administer the transferred water through an amendment to its Long Term Water Supply Contract for the use and benefit of Sandridge Partners in Kings County.	Neg	07/06/2005
2005061030	Del Monte Beach Stormdrain Monterey, City of Monterey--Monterey The City proposes to perform the following: (1) install 3 manholes along Tide Avenue (2 are behind back of sidewalk and 1 is in the parking area at the terminus of Beach Way); (2) remove a sewer manhole in the dune area; (3) install a new pipe at corner of Surf Way & Tide Avenue; (4) clean out an existing sewer pipe along Tide Avenue and reuse for a storm drain; (5) remove and replace one outfall at the terminus of Beach Way & Tide Avenue. The outfall will include a new headwall; (6) remove exposed section of buried pipe; (7) conduct related restoration of the affected environment.	Neg	07/06/2005

The application involves Assessor's Parcel Numbers 101-201-001, 101-202-001, 101-231-001, 101-232-001, 101-233-001, 101-234-001, & 101-242-001 located mostly west of Den Street and south of Coiner Street in the southwest corner of Los Alamos within the urban boundary, Third Supervisorial District.</p>	EIR	07/22/2005
2003121089	<p>Pacheco State Park Preliminary General Plan and Draft EIR Parks and Recreation, Department of Gilroy, Los Banos--Merced, Santa Clara</p> <p>The proposed project is the development of a General Plan for Pacheco State Park. In accordance with Public Resources Code §5002.2 referencing General Plan guidelines and §21000 et seq. concerning the California Environmental Quality Act the Department is preparing a General Plan for the purpose of guiding future development activities and management objectives at the Park. The Park is a recent addition to the State Park system, opened to the public in 1997 and the creation of a General Plan will set forth the long term vision for the Park. A portion of the 6,900 acre parcel, donated by the late Paula Fatjo, a descendant of Francisco Pacheco is currently open to the public for hiking, mountain biking, horseback riding and interpretive programs. The land around Pacheco was originally part of El Rancho San Luis Gonzaga, a 48,000-acre Mexican land grant deeded to Juan Perez Pacheco in 1843. The Park contains a rich array of natural and cultural resources, several residences, garages, paddocks, and outbuildings and is characterized by scenic expanses of open land laced with old ranch roads. Portions of the property are leased for the production of energy through wind turbines, and cattle grazing.</p>	FIN	
2004101035	<p>Eagle Meadows Bakersfield, City of Bakersfield--Kern</p> <p>The Eagle Meadows project is the development of a single-family residential community on approximately 120 acres that include 489 single-family residential units, a detention basin, and 36 acres, of open space that is divided among four lots. The gross density is 3.13 units per acr with a net density of 3.91 units per acre. The project site has a General Plan designation of Low Density Residential (122 acres), which allows development at a density of 7.25 units per acre Open Space (34 acres). The project will result in the development of residential structures with heights between 30 and 35 feet, which is consistent with the City's Municipal Code. Moreover, recognizing the air quality attainment issues that are</p>	FIN

2005062034	Annexation No. ANX-05-03 and 2005 Amendment to the Amended Redevelopment Plan for the Merged Manteca Redevelopment Project Manteca, City of Manteca--San Joaquin The Annexation proposes to annex the approximately 90-acre County Territory (currently surrounded by incorporated City area); the 2005 Amendment will add the 90-acre County Territory (hereinafter the "Added Territory") to the Merged Project Area. With regard to the redevelopment plan for Project Area No. 2 (hereafter "Plan No. 2" and "Project Area No. 2," respectively), which is a constituent project of the Merged Project, the 2005 Amendment will increase certain fiscal limits in accordance with Section 33670 of the California Community Redevelopment Law (CCRL; Health and Safety Code Section 33000, et seq.), as more specifically described in the Initial Study, Section 10, Project Description, Hereafter, the Annexation and Amendment actions are referred to as the "Project."	Neg	07/07/2005
2005062035	Williamson Act Contract Cancellation for Contract # 79-3695 Turlock, City of Turlock--Stanislaus Cancellation of Williamson Act Contract for future development of a single-family residential subdivision, consistent with the Turlock General Plan and the Northeast Turlock Master Plan (NETMP). The property is 4.35 acres in size and, based on the allowable density, approximately 20 single-family residential dwellings can be accommodated at this site. However, as the property is currently under Williamson Act Contract, no subdivision map has been processed on the subject site.	Neg	07/07/2005
2005062036	Windsor Mill Project (GPA/ZC/DA/UP/MJS 04-10) Windsor, City of Windsor--Sonoma Request for approval of legislative actions and entitlements associated with the Windsor Mill Project. The project is a residential planned development including townhomes, single family detached, and commercial live/work units for a total of up to 203 residential units on 20.3 +/- acres. A development agreement, use permit, tentative map, and associated General Plan Amendments and rezoning accompany the proposal. This is an infill redevelopment project.	Neg	07/07/2005
2000082084	Motherlode Forcemain Lime Road to Presley Lane Stream Crossing El Dorado Irrigation District --El Dorado The previously approved Motherlode Forcemain Replacement project, which follows Durock Road between Cameron Park and Shingle Springs, would cross an unnamed stream adjacent and south of an existing bridge with a 20" PVC pipe encased in concrete. The crossing project is 85 feet in length from one side of the bridge to the other, with a 15-foot construction width. The pipeline would cross the creek within 5 feet from the bridge structure and at a minimum of 4 feet below the streambed. Construction will occur over a 5 day period in the dry season. Any water upstream of the work area would be pumped around the work area.	NOD	
2003042170	San Mateo Land Use/Transportation Corridor Plan and the Bay Meadows Specific Plan Amendment San Mateo, City of San Mateo--San Mateo The Rail Corridor Plan is a long range policy document that provides a framework for the long-term development of the Corridor Plan Area. The Plan identifies goals and objectives intended to facilitate Transit-Oriented Development in the Corridor	NOD

	Plan Area that would be implemented through a series of policies that create an integrated pattern of land use, urban design, and circulation that is compact, pedestrian-friendly, and promotes reliance on forms of transportation other than the automobile. The Corridor Plan is a policy document for the long term transit-oriented development within the study area.		
2004012110	Wood Street Project (Formerly Known as the Central Station Project) Oakland, City of Oakland--Alameda Collection of mixed use developments consisting of residential, live-work, retail uses, and non-retail commercial space. Uses are flexible, ranging from a residentially oriented scenario with up to 1570 units, 27,847 sf of commercial uses, and 122,925 sf of private open space; to a commercially oriented scenario of up to 1084 residential units, 539,626 sf of commercial uses, and 88,350 sf of private open space. The project proposes potential means to rehabilitate and reuse substantial portions of the historic Southern Pacific 16th Street Train Station, with a publicly-accessible plaza in front.	NOD	
2004092103	Crain Timberland Conversion Plan Forestry and Fire Protection, Department of --Napa This project consists of the issuance of a Timberland Conversion Permit for the conversion of a 9.04 acre parcel from Timberland for the purpose of establishing a vineyard.	NOD	
2004122104	Lak-20 Shoulder Widening Caltrans #3 --Lake The project will widen the eastbound and westbound shoulders to 8.0 feet, upgrade/extend culverts as needed and upgrade public and private road approaches from 1.1 miles east of the SR 20/29 intersection to 0.1 mile west of the Nice-Lucerne Cutoff Road.	NOD	
2005022067	City of Stockton Regional Wastewater Control Facility Utility Crossing Stockton, City of Stockton--San Joaquin City of Stockton operates its Regional Wastewater Control Facility (FWCF) on 690 acres south of the Port of Stockton and Rough and Ready Island. The main plant facilities are on the east side of the San Joaquin River, and a series of treatment ponds and process units for tertiary wastewater treatment are on the west side of the river. Because the San Joaquin River separates the main plant from the ponds and tertiary units, access, and coordinated operations are limited. The proposed utility crossing will connect facilities on the east and west sides at approximately River Mile 41. The crossing will increase efficiency by providing an access route between the main and tertiary plants for light truck traffic and wiring.	NOD	
2005041095	Well 4614-2 Coachella Valley Water District Palm Desert--Riverside This project includes drilling, casing, and developing a domestic water well, including the installation of a 300-horsepower motor, 1,800 gallons per minute pump, backup electric generator and other appurtenances necessary to connect the well and pumping plant into the domestic water distribution system.	NOD

2005041150	<p>Norwalk High School Improvement Project Norwalk-La Mirada Unified School District Norwalk--Los Angeles</p> <p>The proposed project consists of the construction of one new library building; replacement of existing portables with a 10-classroom building that includes toilets and a staff workroom; replacement of an auto-shop asphalt area with a building containing 8 science labs, prep rooms, and toilets; expansion of the administration building; modernization of the existing science building; renovation of the existing library building with two classrooms and a career center; and installation of lighting in the north parking lot and grassy area on Leffingwell Road.</p>	NOD	
2005042129	<p>EID Relocation of Water Rights El Dorado Irrigation District Placerville--El Dorado</p> <p>The project involves changing four existing water rights to add new places and purpose of use and new points of diversion or re-diversion. Included are: water right license No. 2184 for Weber Reservoir and three pre-1914 appropriative rights on Weber Creek (Farmer's Free Ditch), Slab Creek (Summerfield Ditch), and Hangtown Creek (Gold Hill Ditch). EID would keep diversions closed on the creeks to allow natural flows and released stored water from Weber Reservoir to continue downstream to Folsom Reservoir. The project would add the El Dorado Hills Raw Water Pump Station at Folsom Reservoir as an authorized point of re-diversion; add areas served or to be served by EID in El Dorado Hills and Cameron Park as authorized places of use; add fish, wildlife, and recreation uses within Weber Creek as authorized purposes of use; add municipal, industrial, and fire protection as authorized purposes of use; and add the El Dorado Hills / Cameron Park areas as authorized places of use. Operational improvements include managing Weber Reservoir as agreed with the State of California and the California Department of Fish and Game to maintain a minimum storage at Weber Reservoir and providing minimum releases to Weber Creek to protect and enhance fish and wildlife conditions. No physical changes to the environment are proposed. Only minor operational changes to EID's existing system would be necessary.</p>	NOD	
2005052007	<p>Freeman Quarry Berm Expansion Santa Clara County Gilroy--Santa Clara</p> <p>This application is for a modification to the Use Permit for the Freeman Quarry for the expansion of an existing screening berm. The expansion of the berm will serve two main purposes; first and foremost, expansion of the berm will accommodate the need to relocate the overburden from the quarry floor, thus allowing the quarry to gain better access to the aggregate rock. Second, the expansion of the berm will increase the visual screening of the quarry from Highway 101. Grading for the expansion of the berm will be comprised of 140,000 cy of fill which will be the overburden from the quarry. A modification to the quarry's reclamation plan to decrease the slopes of the quarry from 1:1 to 2:1 is also proposed with this application.</p>	NOD	
2005068101	<p>Replacement Well #7 for Lakeside Water District Health Services, Department of --San Diego</p> <p>Well #7 is a replacement for Well #3, which was destroyed. A new control room was constructed to house the electrical controls for the new well motor.</p>	NOE

1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus This is an application to amend the existing Planned Development Zone P-D(247) in order to facilitate the development of a Commercial Retail Center on approximately 7.47 acres.	NOD	
2003042032	The 2003 Fishery Restoration Grants Program Fish & Game #3 Ventura--Del Norte, Humboldt, Marin, Mendocino, Monterey, Napa, ... The project proposes the enhancement of fish habitat by repairing an existing tidegate, rerouting and restoring the stream channel, and installing a livestock exclusion fence.	NOD	
2004012110	Wood Street Project (Formerly Known as the Central Station Project) Oakland, City of Oakland--Alameda Collection of mixed use developments consisting of residential, live-work, retail uses, and non-retail commercial space. Uses are flexible, ranging from a residentially oriented scenario with up to 1570 units, 27,847 sf of commercial uses, and 122,925 sf of private open space; to a commercially oriented scenario of up to 1084 residential units, 539,626 sf of commercial uses, and 88,350 sf of private open space. The project proposes potential means to rehabilitate and reuse substantial portions of the historic Southern Pacific 16th Street Train Station, with a publicly-accessible plaza in front.	NOD	
2004072047	Edgewood County Park and Natural Preserve Interpretive Center San Mateo County Redwood City--San Mateo The project is located on the banks of Cordilleras Creek in Edgewood County Park and Preserve in Redwood City, San Mateo County. This project is part of a larger project (the Interpretive Center) and involves the installation of a pedestrian bridge over Cordilleras Creek and restoration of approximately 200 linear feet of riparian habitat along both sides of the creek. The habitat restoration activities will include removal of non-native and invasive plant species, and the restoration of the area with native plants. The restoration will also include adding 20 feet to the width to the riparian zone on the north side of the creek by planting riparian and oak woodland plant species to act as an additional buffer between the parking lot and the top of the creek bank. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0214-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Sam Herzberg of San Mateo County, Environmental Services Agency, Parks and Recreation Division.	NOD	
2004081142	Long Beach Memorial Medical Center Expansion Long Beach, City of Long Beach--Los Angeles The proposed project includes the following six elements to be constructed within the next 5 to 10 years: (1) Todd Cancer Institute; (2) Miller Children's Hospital pediatric inpatient lower, utility trench, and central plant building; (3) Miller	NOD

2005069007	Kern River Family Mortuary San Joaquin Valley Air Pollution Control District Bakersfield--Kern Kern River Family Mortuary is a new facility applying for Authority to Construct (ATC) permits to build a new Crematorium and Mortuary in Bakersfield, CA. Robbie Q. Harding, of Kern River Family Mortuary proposes to install at a 1.75MBTU/Hr (primary burner and afterburner) Natural Gas-Fired Crematory Model A-200 HT by American Crematory Equipment Company. It is estimated that approximately 350 bodies per year will be cremated at the facility. A Health Risk Assessment has been performed for this project and indicates no significant risk. This facility is estimated to have emissions under the 2 lbs. per day (less than the BACT threshold) for each criteria pollutant; except NOx. However, BACT requirements for NOx will be satisfied by the use of Natural Gas fuel. Therefore, this facility would not trigger offset thresholds.	NOD

The Restoration Plan/EA describes actions to be taken to compensate for damage to natural resources caused by an oil spill in the McGrath Lake area in late 1993. These actions include the acquisition of land or conservation easements, habitat enhancement, and public education projects.	FIN	
2005061052	Atwater South Vesting Tentative Subdivision Map Atwater, City of Atwater--Merced The project site is approximately 55.7 acres located in the City of Atwater. The proposed project includes development of 151 lots on 40.2 acres (an average lot size of 6,000 square feet), including a storm drain basin located in the southwest corner of the project site, and a 2.5 acre park located on the east side of the development which is bordered by Canal Creek. The remaining 15.5 acres, located to the east of Canal Creek is designated as a "remainder parcel" according to the Vesting Tentative Subdivision Map. The current General Plan designation throughout the project site is Low Density Residential and the zoning is Planned Development Residential. The project also includes extension of water and sewer lines 750 feet north underneath the existing Buhach Road to serve 25 existing residences that were recently annexed into the City of Atwater. The Lead Agency, the City of Atwater, will be using this Mitigated Negative Declaration in their decision-making process.	MND	07/11/2005
2005061053	Proposed to Modular Classrooms at Hesperia High School Hesperia Unified School District Hesperia--San Bernardino High school expansion via modular classrooms; an addition to a performing arts building, a science facility and two laboratories. 2005052007	Freeman Quarry Berm Expansion Santa Clara County Gilroy--Santa Clara This application is for a modification to the Use Permit for the Freeman Quarry for the expansion of an existing screening berm. The expansion of the berm will serve two main purposes; first and foremost, expansion of the berm will accommodate the need to relocate the overburden from the quarry floor, thus allowing the quarry to gain better access to the aggregate rock. Second, the expansion of the berm will increase the visual screening of the quarry from Highway 101. Grading for the expansion of the berm will be comprised of 140,000 cy of fill which will be the overburden from the quarry. A modification to the quarry's reclamation plan to decrease the slopes of the quarry from 1:1 to 2:1 is also proposed with this application.	NOD

2003031096	Proposed Los Angeles State Historic Park General Plan (Cornfield Project Site) Parks and Recreation, Department of --Los Angeles The Department of Parks and Recreation (California State Parks) proposes to adopt a General Plan and programmatic EIR for the proposed park. The following is a summary of the proposed project: The plan delineates a number of conceptual plan elements and establishes a set of goals and guidelines which will guide park management. These goals and guidelines address recreational, operational, interpretive, and resource management opportunities and constraints consistent with the classification of State Historic Park, as set forth in Section 5019.59 of the Public Resources Code and consistent with Department policies. The General Plan does not actually design or located facilities, but provides goals and guidelines for the appropriate types, locations, and designs of facilities that may be proposed in the future. The State Parks Mission and Park Vision give insight into the Park purpose and future planning efforts. The General Plan also establishes the primary interpretive themes for programs and activities. The Plan section of the General Plan includes proposed plan elements, park development and operations, and designates appropriate land uses. This section constitutes the project description. - Preferred Park Concept: This concept ("Los Angeles Flow of History") is intended to provide land-use strategies, arrangements, and treatments to create a park with a strong purpose and identity. - Goals and Guidelines: Goals and guidelines to be applied to facility development, park maintenance and operations, resource protection, and interpretive services throughout the Park. This includes providing a range of experiences and educating the public about the dynamic and inter-related purposes of the Park - cultural/historical, recreational, interpretive, and natural. - Potential Facilities: The following are identified as facilities that could be developed with implementation of the General Plan: administrative offices, maintenance shop and vehicle, equipment, and materials storage; visitor center; facilities for interpretive program support, artifact conservation, visitor services, and volunteer support; indoor and outdoor gathering and educational spaces which may include plazas and interpretive exhibits; possible concessions; multiple-use trails; limited parking; information signage; and recreational and open space elements such as outdoor lighting, picnic tables, shade structures, gardens, and natural habitat areas. 2004062056	Alta Cross Water Collection (EIAQ-3819) Placer County Planning Department Auburn--Placer Development of three springs for commercial collection, storage and transporting of spring water.	NOD	
2004091126	Rio de Los Angeles State Park Preliminary General Plan and Draft EIR Parks and Recreation, Department of Los Angeles, City of--Los Angeles The Department of Parks and Recreation (California State Parks) proposes to adopt a General Plan and programmatic Environmental Impact Report for the proposed park. The following is a summary of the proposed project: The General Plan has been prepared to guide future development activities and management objectives of the 37-acre Rio de Los Angeles State Park. The park site is located on two separate parcels adjacent to the Los Angeles River, referred to as Parcel D (20 acres) and Parcel G-1 (17 acres). The General Plan does not cover the remaining 20 acres on Parcel D that have been leased to the City of Los Angeles to develop and manage active recreational facilities. The General Plan proposes a variety of traditional passive park uses such as habitat restoration, multi-purpose trails, special event areas, nature center, gardens, picnic areas, and other compatible uses. Interpretive and educational facilities would focus on the site's natural history and the nearby Los Angeles River. Transitional open space zones are provided to buffer the park from the adjacent City park Los Angeles River. Transitional open space zones are provided to buffer the park from adjacent City park uses and trail connections are provided to connect the park to other regional open space and recreational areas.	NOD

2005041152	SAVI Ranch Parkway / Weir Canyon Road Intersection Improvements Yorba Linda, City of Yorba Linda, Anaheim--Orange The project consists of improvements to the SAVI Ranch Parkway/Weir Canyon Road intersection. There will be restriping of the roadways, replacement of existing pavement to accommodate the new intersection, and construction of new pavement at the SAVI Ranch Parkway/Weir Canyon Road Intersection. Improvements would include pavement, curb, and gutter, as well as traffic lights.	NOD	
2005042069	Boundary Change: Fairfield-Suisun USD and Travis USD Solano County Fairfield--Solano The project under consideration by the Solano County Committee on School District Organization is the change of the school district boundary, transferring that portion of the SE 1/4 of Section 8 that is within the city limits of Fairfield, from the Fairfield-Suisun Unified School District to the Travis Unified School District. The total area proposed for transfer between the districts is approximately 69 acres.	NOD	
2005069026	County of Monterey Health Department Building Project Monterey County Salinas--Monterey The Health Department of Monterey County is planning the construction of a new 47,600 sf steel structure and the demolition of an existing three-story, 20,500 sf structure built in 1973 and a one-story, 29,000 sf structure built in 1962. The project will consist of two distinct stages. The first phase will include the construction of a new building which will house a laboratory, administration, environmental services and other support functions. Phase two will include the demolition of an existing 20,500 sf three-story tilt-up building, demolition of the 1962 20,500 sf single-story structure and the development of the parking lots and surrounding site work to complete the project. The project will begin in March, 2006 and is projected to be completed by October, 2007.	NOD	
2005069027	Kovar Granite Bay Studio Placer County --Placer The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0417-R2 pursuant to Section 1602 of the Fish and Game Code to the project operator, Steve Shower: The project consists of relocating a westerly swale by grading and filling the existing ephemeral drainage.	NOD	
2005069028	Cingular Wireless - Zorro Water Tank Telecommunications Facility, P 03-136 San Diego County Department of Planning and Land Use --San Diego The proposal is an unmanned telecommunications facility consisting of 4 antennas per sector (3) mounted to one, to be constructed, monopine, The overall height of the monopole will be 50-feet with antennas residing at a height of 45 feet. The antenna array will be mounted to the pole of the monopine, masked in behind the pine branches and needles and painted to blend with the proposed tree. The	NOD

	equipment used by the antennas will be located at the ground level north of the proposed tree. The facility will occupy 350 square feet. The zoning use regulation is RR1 (Rural Residential). Access will be obtained from an existing private road via Circa Oriente.		
2005068153	Tahoe Gal Boat Tour New Seasonal Office Trailer Parks and Recreation, Department of --Placer Establish a seasonal trailer office for North Tahoe Cruises at Tahoe State Recreation Area. The trailer will be placed on the southwest corner of the Tahoe State Recreation property within the Lighthouse Shopping Center parking lot. The trailer will be placed on the paved section of the parking lot and will be removed at the end of the summer. Install a five foot electrical and telephone wire from the trailer to an existing electrical pull box located at the pier entrance. Trench a 12-inch wide x 18-inch deep area to install new lines in previously disturbed soil. The trench will be hand dug and backfilled with sand and natural soil. No disturbance of plant life is anticipated.	NOE	
	If evidence of potentially significant historic/archaeological resources are found (shell, burned animal bone or rock, concentration of bottle glass or ceramics, etc.), the District Archaeologist will be contacted and work will be suspended until the significance of the find is assessed.		
2005068154	Replace Wood Shake Roof and Repair Taoist Symbols on Ridge of Joss House Parks and Recreation, Department of --Trinity Replace deteriorated roof shakes with in-kind sugar pine shakes that have been treated with fire retardant. Install a W.R. Grace Ice and Water Shield System and Cedar Breather with flashing. Install new ridge boards; repair and repaint ridge support and Taoist wood symbols; replace these on the ridge top of the roof and install missing center symbol now in storage at the park. Control carpenter bees on the perimeter of the Joss House. Conduct paint color testing to ensure use of original historic colors. Consult with DPR museum curator in advance of project implementation to develop and implement plan for protection of interior artifacts and building features during work on the roof.	NOE	
2005068155	Residential Ventilation Standards Research Energy Commission Berkeley--Alameda The purpose of this PIER contract is to (1) provide research to support the development of ventilation standards for California's new homes, and (2) to provide technical support in the areas of attic model enhancements and air handler fan efficiency standards.	NOE	
2005068156	2008 Building Efficiency Standards Research Energy Commission Berkeley--Alameda The purpose of this PIER contract is to conduct and manage technical research in support of the 2008 Title-24 Building Energy Efficiency Standards. This meets the PIER goal of improving the energy cost/value of electricity for CA homeowners through improvements to the Building Energy Efficiency Standards.	NOE

2005068157	Experimental Study of Jet Mixing in Rich-Quench-Lean Combustors Energy Commission Irvine--Orange This project represents fundamental combustion research to determine the role of jet mixing in the quick-mix section in the formation of pollutants and products of inefficient combustion under elevated pressures and temperatures. Insight into the extent to which fluid mechanics and chemical reactions contribute to the production of such species as nitrogen oxide (NOx) and carbon monoxide (CO) may influence future designs of the jet mixing section. The project extends prior combustion research conducted at atmospheric pressure to the elevated pressures used in gas turbine combustors. The design and fabrication of the high pressure test hardware and the modifications of the test rig and sampling probes to permit the acquisition of operational data is taking longer than anticipated.	NOE	
2005068158	Commercializing Zero Energy Home New Communities Energy Commission Madera, Brentwood--Contra Costa, Madera This project will evaluate two housing projects incorporating advanced energy efficiency measures and photovoltaic systems. The first is a 75 single-family home development in Brentwood. The second is an 80-unit multi-family development in Madera. Construction of these two projects is being funded by housing developers independently of PIER and will go through all the normal permitting and review processes for single/multifamily housing projects.	NOE	
2005068159	Environmental Effects of Cooling Water Intake Structures Energy Commission --Monterey The purpose of this PIER contract is to establish a program to identify, fund and manage high priority research on the ecological effects of once-through cooling technology on power plants. This meets the PIER goal of improving California's environment through developing research improves our understanding of and ability to mitigate impacts from use of this cooling technology.	NOE	
2005068160	SMUD/CEC Renewable Generation RD&D Program (ReGen R&D) Energy Commission -- The program will focus on two areas: regional electricity impacts and providing enhanced products for customer choice. The program will reduce Sacramento's demand for summertime electricity by developing new, less expensive photovoltaic technologies and installing them on homes and buildings throughout Sacramento. We will develop regional generating capacity by researching and developing new wind, biomass and solar thermal technologies that can be used within Sacramento and in the surrounding countryside inside and outside of the SMUD service territory.	NOE	
2005068161	California Wind Energy Collaborative Energy Commission Davis--Yolo A small residential scale turbine (no more than 10kW size) will be installed on UC property out at the Davis campus...most-likely near their agricultural laboratory facilities where there are currently met towers run by the university along with other equipment for educational purposes. This type of turbine is a commercially off the shelf systems that the public can purchase. Typical height for these systems is less than 30 ft. so there are no airspace or special tower restrictions for these	NOE

	systems. The turbine comes with a self-erecting tower that can be pulled up and taken down without cranes, etc. It is basically a tilt-up stand with turbine on top. There are no plans to hook this system up to the grid since it is more of an educational stand and will be used for teaching purposes rather than energy generation. There are no power purchase agreements or interconnection/transmission issues.		
2005068162	Climate Forecasts for Improving Management of Energy and Hydropower Resources in the Western United States Energy Commission San Diego--San Diego The purpose of this WA is to demonstrate how climate forecasts can be used to predict an important part of the climate variability that affects energy supply and demand, enabling more efficient management of hydropower and energy resources. This meets the PIER Goals of improving the energy cost/value of California's electricity system as well as improving the environmental cost/risk of California's electricity system. This also meets the PIER-EA mandate to conduct research and development activities that will advance science or technology not adequately addressed by the competitive and regulated markets that evaluate and resolve environmental effects of energy delivery in California and provide clearly identifiable benefits to California's ratepayers.	NOE	
2005068163	Demonstration of a Low Energy Seawater Desalination Process Energy Commission Port Hueneme--Ventura The purpose of this PIER contract is to demonstrate that using today's high efficiency pumping and energy recovery technologies can make seawater desalination technically and economically viable option for potable and irrigation water. This meets the PIER goal of improving the energy efficiency and cost effectiveness of producing water for urban, industrial, and agricultural consumption.	NOE	
2005068164	Utility-Focused Market Model for Zero Energy New Homes Energy Commission Mission Viejo--Orange This project will evaluate a 75-unit single-family housing development in South Orange County incorporating advanced energy efficient measures and photovoltaic systems. Construction of this is being funded by a housing developer independently of PIER and will go through all the normal permitting and review processes for single-family housing projects.	NOE	
2005068165	Affordable Multi-Family ZENH Project Energy Commission Los Angeles, City of, Poway--Los Angeles, San Diego This project will evaluate two planned affordable multi-family housing projects incorporating advanced energy efficiency measures and photovoltaic systems. The first is a 55-unit development in Los Angeles. The second is a 56-unit development in Poway. Construction of these two projects is being funded by non-profit housing developers independently of PIER and will go through all the normal permitting and review processes for multifamily housing projects. 2005062062	Cancellation of Williamson Act Contract 78-3438 Turlock, City of Turlock--Stanislaus The request is to cancel the Williamson Act Contract for the subject property to facilitate the development of a single family residential subdivision consistent with the Northeast Turlock Master Plan.	MND	07/13/2005
2005064002	Deep Space Network Array Project National Aeronautics and Space Administration Barstow--San Bernardino The DSN Array Project would be an array-based system, part of a more than 1000 times increase in the downlink/telemetry capability of the DSN. The key function of the DSN Array would be to provide a cost-effective, robust telemetry, tracking, and command services to the space missions of NASA and its international partners. Currently NASA science missions send data back to earth using the DSN. This network currently consists of very large antennas, from 34 meters (112 feet) to 70 meters (230 feet) in diameter located at three locations around the globe. NASA must develop a comprehensive strategy for deep space communications that meet the forthcoming dramatic increase in mission needs in a reliable and cost effective manner, and the present DSN architecture cannot be expanded to do this.	NOI

	includes a set of transportation projects, including key arterial, highway and freeway improvements, transit improvements, and alternative modes improvements. The CTEP also includes projects to improve operation of existing and planned transportation programs/projects.		
1998091007	State Route 138 Widening Project from Avenue T to State Route 18 Through Palmdale, Littlerock, Pearblossom and Llano Caltrans, Planning Palmdale--Los Angeles The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0493-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, California Department of Transportation. The applicant proposes to alter the streambed to widen SR 138 from an existing 2-lane highway to a standard 4-lane highway for segment 11 (146th to 165th Street East) Including the replacement of the existing bridges at Big Rock Wash to a standard one span bridge with 4 lanes and a median. The project includes the removal of the two trapezoidal channels and the existing levee. The highway will be raised to accommodate drainage culverts and revegetating the area. The drainage work includes a longitudinal trapezoidal channel, which will parallel the highway on the south side and outlet in Big Rock Wash. Rock slope protection will be placed upstream and downstream of the bridge. Big Rock Wash will be 80 ft. wide at the base with side slopes at a 1:6 ratio. Culverts will be placed under the roadway in various locations. A concrete slab (apron) will be placed under the bridge. A temporary roadway will be constructed parallel to the existing highway on the north side of the roadway with arch culverts no less than 36" in height to allow for wildlife movement. The proposed road will be 500 feet long by 24-40 feet wide. The temporary road crossing in the wash will impact 1.6 acres. The project is located in the unincorporated area in Los Angeles County.	NOD	
2000041047	Chino Basin Optimum Basin Management Program Inland Empire Utilities Agency --San Bernardino The Chino Basin Conjunctive Use Expansion Program will develop additional facilities required to maximize use of the remaining Chino Basin storage capacity (400,000 acre-feet) for future conjunctive use projects. The project proposes to install pipelines and turnouts throughout the Chino Basin to accomplish this objective.	NOD	
2001101102	Agreement Regarding Proposed Stream Alteration (SAA #R5-2002-0349) to Install a Check Dam in Tick Canyon Wash Under SR 14, Los Angeles County Caltrans #7 Santa Clarita--Los Angeles The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0295-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, California Department of Transportation. The applicant proposes to alter the streambed by installing a check dam in Tick Canyon Wash just south of the State Route 14 Bridge to reduce erosion and alleviate scour at the bridge piles. The project is located near the City of Santa Clarita in Los Angeles County.	NOD

2005061075	<p>Brown Zone Change from C-1 to RA Imperial, City of Imperial Beach--Imperial</p> <p>The applicant is requesting a change of zone on the parcel from C-1 Commercial to RA Multi Family Residential (Apartments) in order to accommodate a proposed 79-unit apartment complex. There will be 10 buildings total, with eight units per building except for the building with the manager's quarters. Thirty-nine of the units will be two bedroom units and the remaining forty units will have three bedrooms. The complex will include covered parking as required by the City of Imperial Zoning Ordinance. Centrally located will be amenities including a community building, swimming pool, barbeque and picnic area, and a tot lot. The community room will have men's and women's restrooms and showers and a multi-purpose room with full-service kitchen. There will be a laundry room attached to each of the ten apartment buildings for use by the tenants, and each of the 79 apartments will have a 250 cubic foot storage locker as required by the City.</p>	MND	07/14/2005
2005062071	<p>Special Use Permit S05-0006 / Rising Hope Therapeutic Community Residential Treatment Facility El Dorado County Planning Department Placerville--El Dorado</p> <p>A Special Use Permit requests to convert an existing transitional house for men in recovery from substance abuse issues to an alcohol and drug treatment and rehabilitation facility to house up to 25 adult males as well as five staff members. At least one staff member will be present at the facility 24 hours a day, seven days a week, with up to four additional staff members commuting to and from the facility. The rehabilitation facility is to be located in the existing 2,552 square foot facility constructed in 1993. No new construction is proposed at the subject parcel. Hours of operation are to be 24 hours a day, seven days a week with residents participating in the structured program during the day. Residents of the facility will include individuals completing court ordered and approved treatment plans typically lasting 18 months as an alternative to prison sentences. Thus, facility residents will be confined to the facility under staff supervision. Transportation for residents requiring outside services will be provided by staff members utilizing one van. Access to the facility is provided by Jim Valley Road connecting to Newtown Road via Fort Jim Road, all of which are County maintained roadways. The project site is 1.4 miles west of Fort Jim Road. A portion of Jim Valley is paved while much of the roadway leading to the subject site is unpaved and ranges in width from 12-feet to 15-feet. The existing unpaved gravel driveway serving the facility ranges in width from 10 feet to 14 feet.</p>	MND	07/14/2005

2005052055	<p>Stockton East Water District - Efficiency Enhancement Project</p> <p>Stockton East Water District</p> <p>Stockton--San Joaquin</p> <p>The project will consist of the design and construction of enhancements to the existing drinking water treatment facility to improve water quality, and conserve energy, chemicals and water. These facilities were originally constructed in 1977-78 to operate conventionally, with a treatment train consisting of coagulation, flocculation, sedimentation, filtration and disinfection. In 1990, these facilities were modified and operated frequently as a direct filtration type facility. The enhancements will allow the facility to be operated more conventionally, resulting in the energy, chemical and water savings. Enhancements include new equipment and plumbing for a rapid mix facility, a new pretreatment complex (coagulation-flocculation-sedimentation basin), and changes to existing facilities to accommodate this new complex. These enhancements will result in lower turbidity levels as water arrives at the existing filters, requiring less frequent filter backwashes, saving energy and water. The enhanced facility will optimize chemical demands, resulting in savings in the amount of chemical applied during the drinking water treatment process.</p>	NOD	
2005068226	<p>Installation of a Temporary Acid System at the Robert A Skinner Filtration Plant</p> <p>Metropolitan Water District of Southern California</p> <p>--Riverside</p> <p>Install a temporary acid system at the Robert A. Skinner Filtration Plant (Skinner Plant), located in Riverside County. A temporary acid system is needed for three years to assist in the treatment of high State Project Water blends expected at the Skinner Plant beginning next winter. The system will be replaced by a permanent system with the construction of the oxidation retrofit project. Equipment to feed sulfuric acid will be added to existing Tank Farm 1, including two 9,000-gallon fiberglass tanks and a covering for those tanks.</p>	NOE	
2005068227	<p>Adoption of Regulations for RCRA Subtitle D Program Research, Development, and Demonstration Permits</p> <p>California Integrated Waste Management Board</p> <p>--</p> <p>These proposed regulations for RCRA Subtitle D Program Research, Development, and Demonstration Permits add Section 20070 to Title 27, California Code of Regulations (27 CCR), Division 2, Chapter 1, and Sections 21595, 21805, and 21835 to 27 CCR, Division 2, Chapter 4. Existing law provides that the operation of a solid waste landfill shall be governed by a solid waste facility permit (Public Resources Code (PRC) section 44001) and, upon receiving final shipment of waste for disposal, final closure and postclosure maintenance plans (PCR section 43507).</p>	NOE
